MANSFIELD NORMAL SEMINARY.

Closing Exercises—An Interesting Entertainment.

The closing exercises of this deservedly popular institution took place in Seminary Hall, on the evening of the 2d inst.

The evening was pleasant, and at an early hour the spacious hall was filled with a large and appreciative audience.

The exercises opened with prayer by Rev. C. Knepper. "Hark the song of Jubilee" was sung by the students.

Miss Jennie B. Bassett spoke the salutatory with fine effect.

"Hope," an original oration by S. B. Jordan showed great depth of thought, and was spoken in a masterly manner.

Essay—"Fortunes and Misfortunes," by Miss Julia D. Boyce, was a sharp and witty fling at the customs and fashions of the present day.

Select Oration—"It might have been," was rendered in a popular manner by Miss Sadie E. Jones.

Mrs. Snodgrass read the story of "Kate Ketchum" in an inimitable manner, and was rewarded with a shower of boquets.

Oration by Mr. G. K. McHendry, subject: "Two Roads," was a pleasing performance.

"Cross Folks," original oration, by Miss Anna M. Wilson, was a queer mixture of the sublime and ridiculous, given in a pleasing manner.

"Guilty or not Guilty:" a selection, read by Miss Mollie Reed, which for clear enunciation and beauty of manner, could not be excelled.

A song: "Coming by and by," was sung beautifully by the Misses Basset and Jones, assisted by S. B Jordan and Prof. Snodgrass.

Essay: "Our Work," by Miss Lizzie Plummer, was beautiful in sentiment, and read in a masterly manner.

Dialogue: "Mrs. Jonas Jones," was an amusing play. The audience were convulsed with laughter during the entire performance.

"The Curfew Must not Ring To-night," read by Miss Annie M. Kowles. This was an elocutionary gem of the highest order.

"Woman's Rights," a lecture by Miss Maggie W. Boyce, was very amusing and entertaining.

Original oration: "Education," by T. C. O'Donovan, evinced great depth of thought, and was spoken by a master orator.

But space will not admit of all.

The reading of the *Mansfield Joker*, a paper edited by Miss Julia Boyce, created quite a sensation among the "lads and lassies." We, in the language of the old ballad can say truly

She washed, and dressed the boys
The ladies fair did tease,
And though she often joked on facts,
Her jokes were sure to please.

Indeed, it was so valuable a treatise on the sayings and doings of the community that your correspondent would only add, give us another issue.

The valedictory was the crowning performance of the evening, spoken by Miss Mollie L. Reed, in a beautiful and touching manner. In concluding, on behalf of her school mates, she made Prof. Snodgrass the happy recipient of a handsome writing desk as a token of esteem. The Prof. was taken completely by surprise, and could only say a few words in acknowledgement of the gift, but his manner spoke more than any words could have done.

Interesting speeches were then made by Revs. McClean, Watson and Wotring.

Celebration of the "Fourth" in London.

Speeches and Toasts.

A Growl of Dissatisfaction from an English Newspaper.

Cassagnac Challenges Gambetta to Fight a Duel.

GREAT BRITAIN.

The "Fourth."

LONDON, July 5.—Dean Stanley, in a sermon at Westminster Abbey, yesterday, alluded to the American Declaration of Independence. He contrasted the animosity displayed in former days on the occasion of its anniversary with the spirit of reconciliation which at present prevailed. Now every American was proud of his English ancestry, and every Englishman was proud of Washington.

The festival given by Americans at the Crystal Palace this evening to celebrate the ninety-ninth anniversary of the Declaration of Independence was one of great magnificence. The marble hall and banqueting room, beautifully decorated, were crowded with a brilliant assemblage of English and American ladies and gentlemen, and thousands of people visited the place during the day and evening. A concert was given in the afternoon. The selections performed were appropriate to the day celebrated, and were received with much applause. The dinner followed. When the cloth was removed Minister Schenck, the Chairman, proposed the healths of the President of the United States and Queen of England, which were received with cheers. Mr. Freeman responded to the toast "The Day we Celebrate." "Home, Sweet Home" was then sung. The toast "Great Britain and America, Mother and Daughter," was given. Mr. McCullough Torrens, member of Parliament for Finsbury, spoke in response, declaring that the desire of all Englishmen now was to have firm friendship with America. Mr. Lucius Fairchild replied to the toast "Concord at Home and Abroad," and Col. Forney to the "Success of the United States Centennial." The latter said the American citizen was the outcome of the mill whereof many nations formed the grist. Yet in spite of this various foreign admixture the American was almost wholly influenced by English habits, laws and literature. With toasts, speeches and music, the proceedings were protracted until a signal was given for the fire works, when the company broke up and went upon the terrace.

LONDON, July 6.—At the banquet in the Crystal Palace last night, Mr. Schenck, on proposing the health of President Grant, dwelt on the pride and attachment the Americans had for the country. They were loyal because the Constitution and Government are of their own choice; and they were loyal to the Executive for the same reason. He alluded to the wonderful material progress of the United States. Both England and America had derived benefit from the Declaration of Independence, and friendly feelings are now the rule between the people of the two countries.

Mr. Torrens referred to the late civil war, and said he knew the Queen never turned against America in the day of trouble.

Among those at the banquet were the son of President Grant, Sir Frederick Perkins and Henry Richards, member of Parliament.

A Growl from the British Lion.

The *Standard* says: "None but Americans would venture on such a display of bad taste as the banquet, and none but English would tolerate it. It is hardly decent for any loyal Englishman to participate in the celebration of English disasters. The American insurrection was about the most unprovoked rebellion in history. At the present time forbearance and conciliation on the English side is returned by the Americans with insult and abuse, which is only encountered by cringing flattery, and this Dean Stanley calls reconciliation and peace-making. Among the Americans are but few not actually participating in the general system of public plunder in their country who would not joyfully exchange their institutions for the order, honesty and loyalty of this empire, from which a century ago they made their insane revolt."

Banquet to the American Team.

DUBLIN, July 5.—The closing festivities in honor of the American team took place to-day. This morning the party, accompanied by Major Leech, members of the Lord Mayor's family and other distinguished citizens of Dublin, made an excursion through Wicklow and halted at Power's Court Waterfall, where a banquet was given in a large tent erected for the occasion. Alderman Manning presided, who proposed a toast to our American visitors. General Dakin made a fitting response, thanking the Irish people for the welcome they had everywhere extended to his companions and himself. He concluded by wishing the Irish team victory everywhere except over the Americans. Alderman Manning and Major Leech were each presented a silver flask in the name of the American team. As they were presented three cheers and a tiger were given.

THE CROPS.

Reports from Various Points in Iowa.

CHICAGO, July 6.—The following crop reports have been telegraphed by the Associated Press from points in Iowa:

DAVENPORT.—Reports from Wyoming, Fayette, Muscatine, Fairfield, Wilton, Brooklyn and Newton, Iowa, and from the vicinity of this city, are very favorable for crops. The past three days' storm seems to have had no other effect than to impede farmers' work. In some places the wind has tangled wheat and barley.

AMES.—Corn will not be over half a crop, and if much more rain falls small grains will be injured.

MARSHALLTOWN.—Low-land corn is badly damaged, but on the high lands it is in good condition. Wheat and oats are unhurt.

TAMA—.Rains have done much damage in this section, but if the weather continues good now the crops will not suffer. The low lands have been overflowed.

MECHANICSVILLE.—Rains have done little injury to any of the crops, and farmers state that there will be a good yield provided no more rain falls.

LUZERNE.—The rains of the last few weeks have injured the crops greatly. Grains are beginning to rust. Farmers say if the wet weather continues another week, wheat and barley will not be worth cutting.

MAQUOKETTA.—There is a good prospect for all grains, but corn is very backward. There is no danger of rust in wheat.

STATE CENTRE.—Corn is suffering much on account of wet weather, which prevents plowing. Other cereals are doing finely.

LOUDON.—The rain has not injured the crops in this vicinity.

STANWOOD.—The crops are in fine condition.

COLO.—The rain has injured the small grain considerably.

CLARENCE.—The crops never looked better. The rains have done no damage.

NORWAY.—The crops are looking well. Rain would, however, do much damage.

DUBUQUE.—Reports from Dubuque, Delaware, Buchanan, Jones, Linn, Bremen, Chickasaw, Floyd, Mitchell, Butler, Franklin, Hardin, Hamilton, Webster, Calhoun, Pocahontas, Buena Vista, Cherokee, and Plymouth counties state that recent rains have not damaged small grains to any great extent. In a few localities some have been blown down and lodged, but wheat, corn, oats and barley generally promise a large yield. A tenth more acres is under crop than last year. Corn looks bad and is very weedy. Wet weather prevents farmers working it. In a few hilly sections it is badly washed. The prospects are that there will hardly be an average crop, though a few weeks of warm and pleasant weather may alter the situation entirely.

The Prospect in Nebraska.

OMAHA, July 6.—The *Herald's* specials from all sections of the State to-night report the crops generally in a flattering condition. Copious rains in the past week did but very slight damage to some, but the balance is placed beyond fear of drought. Farmers will begin harvesting next week. The grasshoppers have about disappeared. Some were flying here to-day at a great height.

TÊMPERANCE WAR.

Blowing Up a Saloon in an Ohio Village.

COLUMBUS, O., July 6.—For some days a warm conflict has been going on in Westerville, in this county, between the citizens of the town and one Henry Corbin, who recently started a saloon within the corporation limits. Until yesterday the war had been one of words, but last night some unknown parties secretly placed gunpowder in the saloon building, connecting with it a fuse, which caused an explosion to occur about midnight, blowing out the windows and doors of the building and raising the roof about four inches. To-day, upon Corbin's application, warrants were issued for the arrest of the preachers of the various churches in Westerville, the Postmaster and four other citizens. The warrants charge the parties named, and others unknown, with riotous conduct in assaulting and encouraging an assault upon Corbin's saloon with stones on the night of July 2d. Otterbein University is located at Westerville, and for many years no saloon has been allowed to exist in the town. The excitement is very great, and each side equally determined to hold on.

Suit Against a Real Estate Pool.

The Additional Circulation Issued to National Banks.

The Postal Troubles at Cincinnati.

WASHINGTON, July 6, 1875.

A Complicated Suit.

Columbus Alexander, one of the creditors of Jay Cooke & Co., claims that what he terms the real estate pool of the late District Court is debtor to Jay Cooke's estate to the amount of the profits arising from $25,000 invested by Cooke in the pool. Accordingly he has entered suit in the Supreme District Court against pool making. E. M. Lewis and the members of Cooke's firm are the plaintiffs, and Kilbaum & Latta, Senator Stewart, Senator Sargeant, Geo. C. Gorham, Jerome Chaffee, Fitch & Fox, W. W. Corcoran, Alderman Shepherd, Geo. W. Riggs and twenty-three others, defendants. He has made application for a receiver for all the real estate purchased by them, and for an injunction to prevent them from disposing of any property in their hands. He also calls for bills and exhibits, and asks to have subpœnas issued to all the defendants to appear and answer.

Additional Circulation.

The Comptroller of the Currency reports the amount of additional circulation issued during the month of June as $1,615,525; amount of legal tender notes deposited in the same period, $3,009,626; additional circulation issued since the passage of the act of June 20th, 1874, $11,601,892; amount of circulation destroyed and retired during the same time, $9,627,066—showing an actual increase of bank circulation during the year of only $1,978,826. The amount of legal tender notes deposited for the purpose of retiring circulation since the passage of the same act is $25,524,057, and the amount deposited by banks in liquidation previous to that date $3,813,675, making a total of $29,336,732. ATLANTA.

Speech by A. H. Stephens on the Declaration of Independence.

ATLANTA, July 5.—The celebration of the 4th of July here called together the largest mass meeting since the war. Citizens and soldiers all participated. Gov. Smith presided. Hon. A. H. Stephens, the orator of the day, made a speech on the Declaration of Independence. He reviewed the causes leading to American freedom, and described the grand celebration had in Philadelphia July 4, 1789. He said: This is the centennial period, the grand demonstrations in honor of the destruction of tea at Boston and Baltimore and the battles of Concord, Lexington, Bunker Hill and Mecklenburg. The declaration which has brought the different sections into more harmonious accord is but a prelude to the celebration of the anniversary of this declaration which is to come off next year in Philadelphia. The question is mooted whether we shall be represented in that celebration. In reply, I say, with all the emphasis I can command, "Yes." What more fitting occasion could be planned for the gathering of the people to consider the nature of the institutions and contemplate their working in the past, especially when administered on the principles on which they were founded? Mr. Stephens closed with "All honor, now and forever, to the men who, by their deeds in the council chambers, or the battle fields, achieved our independence."

MEMPHIS.

Fatal Shooting Affair — Sudden Death of a Stranger.

MEMPHIS, July 6.—Pat. Manning, a retail grocer, was shot and killed this afternoon by officer McCormick, who a short time before had entered Manning's grocery and asked him to quit beating one of his (Manning's) children, to which Manning replied by throwing a monkey-wrench at McCormick and using abusive and approbrious epithets. McCormick left and procured a warrant for the arrest of Manning, and on entering the grocery was fired at by Manning, the ball grazing the officer's temple, whereupon McCormick drew his revolver and fired, killing Manning instantly. McCormick then surrendered himself. Manning was formerly a policeman.

A stranger, representing himself as a traveling agent for a New York house, was found dead in bed this morning. Nothing was found on him to indicate his residence or name. He was about forty years of age, heavy set, dark hair, cut short, and light mustache and chin whiskers. Verdict of the Coroner's jury—death from heart disease.

IOWA.

Six Persons Find a Watery Grave.

CHICAGO, July 6.—The *Evening Journal's* special from Des Moines says on Saturday evening last, as a large party were returning from Greenfield, Adair county, to their home in the country, they attempted to cross Middle river, which had been swollen by recent rains. A wagon containing Mr. A. Montgomery, wife, daughter and son, and Mrs. Thos. Montgomery, her three children and J. R. Baker, was overturned and the occupants plunged into the torrent. Mrs. Thos. Montgomery and her babe went down and were not seen afterward. Mr. Montgomery clung to the horses for a while, with a little boy in his arms, but was compelled to let go and both were drowned. Meantime Mr. Baker, who had been swiming to the opposite shore with another boy in his arms, became exhausted when within four feet of the bank, and was carried down the torrent. The other people were rescued by the neighbors.

Murder at Scranton.

SCRANTON, Pa., July 6.—A young man, named Frank Doud, was murdered here last night by another young man, named Walter Whittaker. They were boon companions, but had been rival suitors for the hand of a young woman, and in the afternoon had quarreled about her, when Doud declared he would take her away from all rivals, which so incensed Whittaker that he armed himself with a butcher knife, and meeting his victim shortly after, plunged it into his bowels. The murderer was captured and lodged in jail.

Terrible Crime in Illinois.

ST. LOUIS, July 6.—A little German girl named Schmidt, aged seven years, was outraged and killed near O'Fallen, Illinois, Sunday night. It appears that the people in that village had been celebrating the Fourth in a grove near by, and in the evening, when Mr. Schmidt, the father of the child, was ready to go home he could not find his daughter. Search was immediately made and continued until about three o'clock yesterday morning, when the body of the child was found in the grass near a fence adjoining the road leading from the grove. A man named James Hogan was arrested in East St. Louis last night on suspicion of being the guilty party, and taken to O'Fallen. Intense excitement prevailed in that vicinity, and fears are entertained that Hogan will be lynched.

Evening.—But little additional has been learned about the outrage and murder of the child Lizzie Schmidt at O'Fallon on Sunday night. Another man, named Chas. Williams, has been arrested, and it is believed four men in all were engaged in the outrage. The citizens of the vicinity are still greatly excited over the brutal deed and are determined that the guilty parties shall be ferretted out.

THE NATIONAL HOLIDAY.

How it was Observed Around the Cities.

The celebration of the national holiday in and around the twin cities, was generally characteristic for quietness. The day was one of excessive heat, and the chief concern of most folks was to secure some place in which the fervency of the atmosphere could be endured with the least discomfort. Some stayed at home to accomplish this; others sought rural retreats. The number of picnicing parties was unusually large. They were generally, however, of a private character—the pleasure-seekers preferring apparently to go off in small companies rather than in large crowds. All the excursion trains leaving the city were full, and the roads leading to the suburbs were crowded with all kinds of vehicles, each bearing a load of human freight, happy in anticipation of a joyous day in the woods.

In the cities the day was remarkably dull. The only public demonstration was that of the Catholic temperance societies. There were fifteen societies in line, and about half a dozen brass bands. The members of the societies wore regalias and a number of flags and banners were carried. The display was very creditable in point of members, and the procession was a very pretty one. This formed the chief feature of the morning in the cities.

The pyrotechnic display during the day and evening was quite limited. A few of the juveniles in the excess of their youthful patriotism, braved magisterial wrath and indulged in the pleasures of explosive fireworks, but there was less of this than usual and neither the smell of burnt gunpowder, or a conflagration called to mind that the day was being celebrated with the old time "whizzbang" splendor. It was well that it was so, perhaps, for an old time Fourth with its fires and maimed juveniles, frightened horses, and wrecked vehicles, is not always the one which is looked back to with the fondest memories.

The spirit of the day was not one of belligerency. A few passages-at-arms occurred, but save in the instance of the row at Monitor grove, they were generally of a mild type. They were only facetious interchanges through which the exuberance of patriotic and other spirits found vent, and as the honors were pretty evenly distributed, there could be no complaint. In respect to fighting the day was an exceptional one.

Altogether the occasion was one characteristic for—well does not quietude express it all; yet it was one of more general enjoyment than many of its predecessors which have been more conspicuous for flare and bustle.

ALLEGHENY CITY PROPERTY.

Proposition From the Industrial Exposition Management.

The Committee on City Property of Allegheny Councils met last evening, Mr. George Cochran presiding. Messrs. Cooke, Biber and Thompson were appointed a sub-committee to make the necessary arrangements for renting the second story of the Armory building to the Allegheny City Guards, an infantry company.

The chairman of the committee was authorized to purchase a clock for the room of the clerk to the committees.

The chairman submitted a communication from Mr. J. Vannote, Secretary of the Tradesman's Industrial Exposition, making requests as follows:

1st. To execute to them a lease for fifteen or more years of the land controlled by the city, known as Smoky Island, the same to be conditioned on their using the property for exposition and kindred purposes.

2d. Order the dumpage of the city on the land in order that the proper height of ground may be speedily had.

3d. Open Irwin avenue to Bank lane, and deposit the earth thus obtained in that portion of Smoky Island, to be occupied by the exposition.

4th. Beautify Monument Hill by reducing the grade—depositing the earth in Smoky Island bottom.

After some discussion Mr. Cook moved that the committee agree to enter into negotiations to lease the ground desired to the managers of the exposition, and the Clerk be instructed to notify Mr. Vannote of this action. Adopted.

In regard to the other requests made by Mr. Vannote, the committee took no action.

BADLY SHOT.

An Affray on the South Side—Man Shot by a Policeman.

About nine o'clock last night a man whose name we did not learn, got to quarreling with his wife at their residence on the South Side. Officer McCoy went into the house for the purpose of arresting the man, when he asked for the warrant, The policeman was unable to show it, when the husband went to the cupboard, and returning with his hands behind his back, as though hiding something there, again asked for the warrant. It is said that McCoy replied that he could show him the warrant very quick, and drawing a revolver, he shot the man in the side, inflicting a very dangerous wound. The policeman gave himself up, and the injured man at last account was quite low and receiving religious consolation from priests.

DEAN STANLEY, in England, reading the Declaration of American Independence, and eulogizing our Washington, are surely indications that the world moves.

THE *Dispatch*, in a two column editorial, endeavors to convince its readers that it still thinks Beecher guilty—of what? The weather is too hot for lengthy diatribes.

THE new bridge at Cincinnati for the Southern railroad is progressing rapidly. The contractors are the Keystone Bridge Company of this city, who promise to complete it by the first of December next.

THE weather for the past few days being uncommonly hot and sultry, admonishes all to be careful of their habits. Excessive eating or drinking in such torrid weather is often attended with fatal results on exceeding short notice.

ALEXANDER STEPHENS, late Vice President of the Southern Confederacy, took a prominent part in the celebration on Monday, at Atlanta, and in his oration stated that the South should be largely and fully represented at the Centennial celebration of next year.

THE trunk lines have at last formally put into effect their recent compromise, or combination, and the first result is increased passenger rates. We suppose the adjustment is made as equitable as possible, the design being to put a stop to the cutting process, lately indulged in.

THE *Post*, at last, acknowledges that the Democrats have about cleaned out Cincinnati "lock, stock and barrel." And yet it urges the uncommon honesty of the craft in this quarter.

"The devil fell sick, the devil a monk would be,
The devil grew well, the devil the monk was he."

THREE HUNDRED THOUSAND boxes of Chinese crackers were imported from the celestial Empire this year by this country. The amount of fizzing and popping caused by these, all over the land, during the past three or four days, mark the interest taken by our boys in the Fourth of July.

THE movements, or want of them, of Mr. Secretary Delano, appear to worry some newspapers and their correspondents terribly. Suppose he does intend to resign, or does not, why make so much talk about it? There is surely no public significance in his movements, whether he goes or stays.

THE gift of flowers, said to have been made in Memphis on the day celebrated for the "Fourth," by the society of colored young ladies, to General Forrest, as a final end to all animosity between them, and his reply accepting the same, and acknowledging the spirit of the occasion, are evidences of returning harmony among the classes of the South.

AT a recent meeting of the Peach Growers' Association of Maryland and Delaware, it was ascertained that the surplus product of those States would reach fully *ten million* baskets. This will do pretty well for a bad year. The railroads have already fixed special rates for this immense product, and we may look for them in great abundance.

IT is mentioned as a notable circumstance, that for the first time in our history, an intelligent celebration of the national anniversary by the Indians took place among the Choctaws, in Indian Territory. Speeches were made in our language and in the native dialect, by prominent speakers, among them the present Chief of the Choctaws, Col. Coleman, and Governor Allen Wright, an educated Choctaw.

THEY have an agreeable way of celebrating down in Vicksburg. On Monday the usual routine was gone through with, during which several skulls were broken, some shots fired and the report winds up with the accustomed accuracy, *viz:* "During the melee *two negroes* were killed and one seriously wounded. Everything is quiet to-day." No arrests were made, of course. That would change the order of things. Evidently the era of good fellowship has not yet dawned on Vicksburg.

THE latest news from the Black Hills should deter any person who has been thinking of risking his chances and his neck in that far off desert. Prof. Jenney reports no gold found yet in paying quantities. The mountain of solid metal is as yet far off in the imagination; the reality has not so far been found. Until the Professor—who is certainly unprejudiced in his work and perfectly capable of judging, and therefore reliable—does report a favorable state of affairs for the average miner, it will be safe to remain at home; otherwise starvation, or great suffering at best, can be looked for by all who go.

IN a recent decision under the new license law, Judge Ross, of the Bucks and Montgomery district, showed that the number of licenses to sell liquors in his district had increased over fifteen per cent. This is the report from all parts of the State, and deserves the careful consideration of the Prohibitionists, who are indirectly responsible for it. The Courts are compelled under this law to grant a license to every applicant who complies with the law, viz.: pays the fee into the State Treasury through the County Treasurer. All discretionary power has been taken from the Courts, and they are no longer, as formerly, guardians, in a measure, of the public good.

GENERAL SAM. CARY, Democratic candidate for Lieutenant Governor of Ohio, still holds on to his prohibitory ideas. The Cincinnati *Commercial* says of him: "His hate of the destructive fluid is as hot and intense as it was when he was a Knight of the Order of the Sons of Temperance, and sat for his picture, with the full regalia of the Order ornamenting his person." But then it adds: "But his aggressive work is done, at least for the present, and until it is known whether he is elected Lieutenant Governor; just now, he would not object to receive the votes of the liquor-sellers, and proposes a truce in the warfare. That is as far as he is willing to go. If they will vote for him he will cease to wage war for the time being." Samuel, we fear, is blowing hot and cold on this one pet idea of his. It would be a wonder to find him adhering to any fixed principle.

IT is a source of gratification to learn that both Beecher and Tilton are agreeably pleased, not to say fully satisfied, with the vindication afforded them by the disagreement of the jury. Beecher holds that the world will consider him innocent until found guilty by a jury of his peers, and this has not been done. The trial afforded him the needed opportunity to explain the great secret which existed so long between Tilton and himself, to which the former continued to make uncomfortable allusion so often, and to expose the blackmailing attempts of the two worthies who conspired against him, *viz:* Tilton and Moulton. He considers himself as fully vindicated in the minds of impartial men and women, as though the jury had acquitted, and exonerated him from all charge or suspicion of crime. On the other hand, Beach, speaking for his client Tilton, says the disagreement is as good as a verdict, inasmuch as the trial accomplished all that was hoped for or desired. It enabled Tilton to relieve his burdened mind of the load of calumny, which it had for so many years been compelled to carry and secrete; and at the same time permitted him to "get even" with Plymouth Church circles, which had discarded his companionship. The cherished objects of his heart, therefore, were accomplished, and he is happy. All this is pleasant information to outsiders, who were afraid the disagreement would leave matters in an unsettled condition, which might bring on another six months' trial. They, therefore, find good reason for congratulation, inasmuch as the trial has pleased all the principals so much and ended the matter.

What Moulton may think of it, doesn't appear to trouble the outside world to any alarming degree. Neither does the enormous cost which has been imposed upon the New York taxpayers by the unsettled difficulty, disturb their slumbers. Now that both Beecher and Tilton, their lawyers and the public are all satisfied with the result of the "great scandal trial," and everybody but Moulton has been vindicated from all intentional criminality, we suppose we ought to be happy that the contest got into the Courts and resulted in the way it did. In the meantime, Mr. Beecher will continue to preach in Plymouth Church to crowded and delighted audiences, and Mr. Tilton will grow rich through the notoriety attained, by continuing to lecture before the Lyceums and Libraries throughout the country.

THE PHILADELPHIA MEETING.

The meeting announced as having been held by workingmen in Independence Square, Philadelphia, the other night, was of probably less significance than at first glance it would appear. The audience was composed of both Americans and Germans, we are told; was addressed by speakers in both languages, and, taken as a whole, probably reflected the sentiments of the speakers, whose evident intention was to tickle the fancy of the audience and promote their own welfare. Let us look at the resolutions, briefly, and endeavor to find how far these supposed sentiments of this large and respectable meeting differ from the opinions ordinarily held by all classes in common.

First. They favor the organization of co-operative societies to be chartered and aided by the Government; that these societies shall go into business on the principle of dividing equally among all the employes the surplus profits, after paying expenses and interest on the capital contributed. So far as the establishment of co-operative associations is concerned, that is, those purely co-operative—wherein an equal contribution of labor and capital brings an equal distribution of profits or *losses*, whichever may occur—the GAZETTE always has, and doubtless always will maintain and recommend. The nearer you can bring capital and labor together, so that a perfect and accordant sympathy may at all times and under all circumstances exist, in prosperity as well as adversity, and thereby dispel all feelings of envy or jealousy, which lead to discontent and trouble, the better it will be for employer and employed, and the closer will we approach to prosperity in all our branches of industry. But this arrangement must not be effected or attempted at the expense singly of either labor or capital; both must join, and contribute equally, or the system is not purely co-operative. Both must be interested alike, and the responsibility will then be divided equally, as well as the profits or losses. We cannot say to the capitalist, contribute the cash needed and the credit, and after receiving full pay for labor or services, claim a proportion of profits; because, *first*, we have earned nothing, having been paid in full for all we have done or furnished; and *second*, because we take no risk of the losses in business, which are likely, at all times, to occur. If we would wish to divide profits, we must contribute share and share alike—paying the laborer his hire, and all other necessary expenses—and taking our risk of the result, either of profit or loss. Thus do we become joint owner and builder, and are entitled to a division of whatever results from the partnership. Neither could we say to labor, you must work for nothing, awaiting the end of the year for your profits, or dividend. Labor must be paid all it will bring; paid promptly at stated times. It cannot afford to take the risk along with capital, and await results at the end of the business season. They are two distinct and opposite characters, and they cannot be united arbitrarily; both have their proper functions, which must not be confounded. Purely co-operative industries, with a joint contribution of labor and capital, or their equivalent, are all right in principle, and would prove largely beneficial if properly organized and managed; but they must not be confounded with agrarian efforts to obtain profits without assuming the risk of losses. We must sow before we can reap. It would be disastrous to society if any other opinion on the subject generally obtained a foothold among the people.

The second resolution asks for a retracing of steps looking to specie payments, and the substitution of legal tenders—their volume to ebb and flow according to the rate of interest. The man who wrote that resolve must surely imagine that when the Government shall increase the volume of greenbacks it will do so by sending an express package of currency to each man's home. By adopting this practical method of increasing the currency might lessen the interest rate for the time being, by placing every one beyond need of borrowing, perhaps; but we question very much whether it would take many such distributions to cause the anxious inquiry whether the Government or its note holder were the poorer. It is amazing the profound ignorance which exists on this subject of currency inflation, and its effect on business and prosperity. One would suppose, from such teachings as the author of the above resolution would give us, that all the Government had to do to bring about "good times" viz.: "plenty of work, with high prices," would be to inflate the currency. Why the Government is paying out its currency as fast as honest claims are presented, and it would not be let out any faster, perhaps, if the greenbacks printed were two to one what they are at present. Nor do we think the time has arrived to retrace any steps as yet taken toward resumption. The period fixed for this by Congress is yet far off, and has no appreciable effect upon business at present. The dullness existing in trade and manufacturing is wholly owing to causes outside of any efforts yet taken to resume the payment of specie. When the time does draw nigh there will be good opportunity for learning whether specie payments will prove the panacea for all our business woes. But that time has not yet arrived, and we therefore say, stop tinkering with the currency question; let it alone for the present.

The last resolve by the Philadelphia meeting meets with a hearty response, of course, but it is a little late in the day for even that piece of good advice. President Grant's administration has surely been doing well in bringing to punishment the violators of law, and at present has the giant whisky ring by the throat, begging for mercy. The same is true, all through the course of the last seven years; no effort has been wanting to bring to punishment all who fraudulently opposed the revenue or customs laws, or otherwise sought to cheat and swindle the Government. Now, in general, we would say to these, and all other workingmen, here or elsewhere, the greatest good is to be found in one of the two great National parties already before the public. No faith can be put in cast off, worthless demagogues, who, with blatant voice or skillful pen, endeavor to prove themselves the apostles of all modern reforms. Personal motives are at the bottom of every such effort; and we advise all to give no heed to such adventurers, but look to one or the other of the great parties to so direct the affairs of the Nation that good to all shall come. We still think the party of progress and all real reform is the great Union Republican party, which has effected such vast results to the country; brought it safely through years of civil strife; kept its credit unimpaired; extended its business relations and permanently established and maintained them in every portion of the civilized globe; and which provides to-day to do all that can be done for the good of the whole country and its domestic and foreign affairs. That some bad men have crept into office, is not to be wondered at, neither is any security given that the same will not occur with any party. The party, as a party, should not suffer for this, so long as it gives evidence of intention to discover and punish all such. This, we think, has been done by the Republican party as completely as could have been done by any other, and its record in this direction is unimpeached.

POLITICAL NOTES.

THE party whose devotion to the best interests of the public schools has never been questioned is not the Democratic.

GEN. ROBERTS, Democratic candidate for Governor of Maine, served his country in the War of the Rebellion until after the second battle of Bull Run. In that dark hour he resigned, although in full bodily vigor; and his resignation was accepted. Gen. Seldon Connor, his Republican competitor, entered the army as a private soldier, and served through the war.

THERE has been a pretty generous thinning out among the Democratic candidates for the Presidency within the past four weeks. Senator Thurman is without hope; Gov. Allen was never in the field enough to be counted, and if he had been, he would be out now; Gov. Hendricks is in a very precarious condition and can only be saved by a railroad accident or some other dispensation of Providence which shall close his mouth for the next six months.

THOUGHT it would come to that eventually. The correspondents are abusing Cora Pearl, the brazen demi-mondaine, now that she is getting old, and describe her as hard, haggard and coarse, with parrot-like eyes.

AMONG the goods and chattels of the late Earl of Yarborough, by no means one of the richest of peers, appears an item of 10,000 cigars. They were sold the other day for enormous prices, many boxes averaging two shillings per cigar.

THE Princess Colonna, nee San Theodora, who was recently married in Rome, has eight rows of necklaces of solitaire diamonds. Besides these, there are diamond ornaments without number, coming from two great houses which this marriage unites.

THERE seems to be no doubt that the report of Robert Dale Owen's insanity is true. He was taken to his old home at New Harmony, Indiana, on Tuesday last, where he is now in charge of his son. A correspondent of the Rochester *Express*, writing from Dansville, where Mr. Owen has been staying for some time, says: "During the past week his eccentricities increased to such an alarming extent that it became painfully evident to those who knew him that the great mind of Robert Dale Owen had lost its reason. His wild, excited actions on Friday last at the grounds of the Danville Driving Park Association were clearly those of an insane person. Driving furiously among a crowd of carriages, accosting strangers, and gesticulating violently, he was a source of annoyance to his friends and of surprise to strangers. His son was telegraphed for immediately. He reached here Sunday night, and on Tuesday morning started for his home in Indiana with Mr. Owen."

AT Macksville, Ind., about forty persons were assembled in a school house, holding Sunday School on Sunday afternoon. THERE is one fortunate circumstance connected with the conferring of the "L. L. D." degree by our Colleges and Universities, to wit, that very few of the "Doctors" go into practice. The world would see a lively time if even the tenth portion of the "doctors of laws" annually turned out at the college commencements should take it into their heads to put the laws and constitutions of the universe through "a course of treatment."

THE "Fourth" was generally observed on Monday throughout the country—among other places at St. Louis, Richmond, New York, San Francisco, Memphis, Ataha, I. T., and Atlanta. At Memphis Miss Lou Lewis (colored), in behalf of the colored society of Pole-Bearers, presented General Forrest with a bouquet as a token of reconciliation, which the General accepted in a few brief remarks.

THE Watertown *Times* mentions the case of a young lady in Jefferson county, who while asleep, was suddenly awakened by a severe pain in her ear. She arose, and the pain passed off; she again lay down and was again attacked with the pain more severely than at first. She was told to pour water into the aching ear. She complied, when a large spider made its appearance.

ANOTHER dispatch was received at the Indian Bureau on Monday from Prof. Janney, in which he reiterates his former statement that so far he has not found gold enough in the Black Hills to warrant any extended mining operations. There are fifteen miners near where he is encamped, who claim that they obtain five to fifteen cents worth of gold to a panful of earth. The professor states that he has tested it several times and cannot make an average of over one and a half cents per pan. He describes the character of the formations, and says it does not indicate gold.

A CURIOUS CASE was tried in the District Court, Worcester, Mass., Friday, where Nathaniel B. Ingraham was charged with the larceny of wood from James Richards. Richards testified that he had missed wood and filled some of his sticks with gunpowder. These sticks he placed in his cellar, and they were subsequently found by the police in the wood-box of Ingraham. The sticks were produced in Court, split open, and found to contain a very large charge of gunpowder, enough to have shattered the cook-stove of Ingraham to pieces. Ingraham denied taking them and said he bought them from a Frenchman. The Court remarked that it was a barbarous method of procedure, as it endangered the lives of innocent people. The defendant was discharged.

THE preparations for mining coal are steadily progressing all through the anthracite regions, and at several places in the Schuylkill region active operations have commenced. The anthracite production for the week ending on the 26th ult. was 380,021 tons, and for the year 6,368,967 tons, against 8,808,291 tons for the corresponding date last year, a decrease of 2,440,324 tons. The bituminous tonnage for the week was 89,429 tons and for the year 1,516,737 tons, making a total of all kinds for the week of 469,450 and for the year of 7,885,704 tons, against 10,249,822 tons for the same time last year, a decrease of 2,364,128 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 117,507 tons, and for the year 1,706,061 tons, of which 1,430,502 was coal and 284,369 coke. This embraces all the coal carried both East and West.

THE AMERICANS IN IRELAND.

An Excursion in Dublin Waters—The Scenery of the Bay—Festive Greetings of the Two Hemispheres.

[From the Freeman's Journal, June 22.]

Yesterday a number of our American visitors were treated by the Port and Docks Board to an excursion in Dublin waters. Only the minority of the Team proper were able to avail of the invitation, Colonel Bodine, Colonel Gildersleeve, and certain of their *confreres*, have arranged to visit the theatre of the approaching contest for the purpose of improving their acquaintance with its bearings. It is evident that while willing to enjoy to the full the hospitalities and other enjoyments of their reception, our Transatlantic friends are not to be beguiled from business, and if there is an abyss under the flowers and a spell in the cup they are not the species of simpleton to yield to the snares of the tempter. Others of the party remained in town with the object of inspecting local features of interest. Between thirty and forty ladies and gentlemen form the company. There were ten or twelve Americans, the balance being composed of members and officers of the Board and of invited guests. At 11 o'clock the party arrived at Kingstown from Dublin by train, and quitting *terra firma* in a mizzle which gave ominous portent of the day's complexion, were conveyed by steam-launch and boat to the Princess Alexandra, one of the two steamers belonging to the Board. This beautifully fitted vessel had only just completed a five weeks' tour of the coast, having conveyed the high and mighty Commissioners of Irish Lights on one of their periodical surveys. She was amply provided in every sense for the holiday voyage of the day. Shortly after eleven she cast off to the music of a cheer from the spectators gathered on the pier, and in a minute the tidy craft, gaily decked with multi-colored bunting, was in full head for the mouth of the harbor. Unfortunately, the weather was altogether unfavorable. It was calm enough, though when the wider water was reached people began, in a vague, suggestive sort of way to discuss sea sickness, and a person of susceptible internal apparatus, aggravated by a taste for Byronic readings, found his mind running involuntarily upon that couplet wherein the Euxine figures so emetically. But a capful of wind would have been excused if it only brought a clearer atmosphere. As it was, the better points of the panorama were virtually obliterated and whatever scenic effects were visible showed at their dullest and most unattractive. People anxious to impress upon the strangers the special beauties of the landward view not unfrequently saw the very aspect they were proudly indicating all of a sudden blotted out by the swooping mists. Now and then, however, there were brief intervals when the heavy weather lifted a bit and one caught glimpses of the familiar points which give the scenery of Dublin Bay so wide and well deserved reputation. At such times the shore and its background stood revealed in all the variety of bright green woodland, yellow beach, and slope, and terrace, thickly sprinkled with villa and picturesque seaside retreats. Back of all rose the blue mountains. That lovely sweep of country which stretches in a wide, deep curve betwixt Dalkey and Bray showed out in a fair moment and, probably, removed the doubts which must have been created in the American mind by vain efforts to perceive what was not to be seen for the weather elsewhere. The islands lying out to sea looked as indistinct as clouds. Ireland's Eye particularly being almost wholly obscured by the tear in it. So far there was an element of disappointment of course. But if the Americans felt any they disguised the feeling very successfully, and appeared, on the whole, rather likely not to be seriously affected by their loss. Their native companions, having, it is possible, seen these parts before, were easy enough; and besides what with chatting and laughing and converse of the merriest and most sociable the representatives of the two nationalities grouped in the lee of shelter or gathered forward in the dry hours, snapped their fingers at Aquarius and all his works and pomps. The run around Dalkey Island was, under the circumstances, a very pleasant one. At half-past one the Princess Alexandra reached the spot in the harbor from which she had started, and a few additional guests having been received on board the "tocsin of the soul" was heard, and straightway the company addressed itself to luncheon. This was a meal as agreeable as such refections aboard the barque of pleasure usually are. Things are at the antipodes of state and ceremony—it is in a sense *clacun pour soi*, and the opportunities for hob-nob and pickings in a cosy corner with a friend or two are many. Then the little shifts that become the rule, and the manifold novelties which mark the mode and manner of service and consumption of the victual, color the business altogether with freshness and frolic. Not by the way, that luncheon on board the Princess Alexandra had anything of the scramble about it. With Alderman Manning for alert Amphitrite and most cordial ruler of the roast (and boiled), with viands good and abundant, and a campagne competition in which Ruinart, Roederer and Geisler went popping like a musketry fire, with, moreover, excellent attendance, the veriest misanthrope might burst into jovial canticles concerning life (temporary and as guests of a publicboard) on the ocean wave. The festive greeting of the two hemispheres took place in all sorts of queer nooks and crannies, for the main cabin of the steamer was not large enough for the company, and the snuggest of supplementary snuggeries were contrived out of the side of the ship. In these places the fraternization betwixt the children of the East and West was of the most cordial character. A distinguished nephew of a certain famous guerilla leader of the great civil war told stories of Old Kentucky; a learned member of the New York Bar about the giant bivalves of the States and that marvel of American cookery the Saratoga potato; while a homebred youth sustained the interest of home topics with a vivid picture of the perils which await those who go down to the canal in turf boats as exemplified in that dismal tragedy the wreck of the Bugaboo. It was this pleasant sort of thing throughout the vessel. Luncheon over, the Princess Alexandra once more steamed out of harbor and proceeded for Wicklow Head. The weather was not to be propitiated, but the voyagers were resolved to make the best of it, and, notwithstanding all obstacles, succeeded in enjoying the run to and back in the fullest fashion. Kingstown was reached at an early hour of the afternoon and thus finished an extremely enjoyable day. Last night the entire American party were entertained at a banquet at Kingstown, by the Port and Docks Board.

ROMANCE IN KANSAS.

A Cheyenne Indian Attempts to Abduct a Farmer's Daughter.

[From the St. Joseph (Mo.) Herald, July 1.]

One of the main tributaries of the Little Arkansas river is called Running Turtle Creek, at the mouth of which is Jim Geary's ranche, an old and somewhat notorious stopping place in the days when Government provisions were hauled from Fort Harker to the Indian Territory by means of bull and mule teams. Among the early settlers was a family from Ohio named Falconer, which consisted of Robert Falconer, his wife Sarah and an only daughter, Bessie, at this time about seventeen years old. The young girl was engaged to a young farmer, and had nothing happened would have been married on last Friday evening. The time for the marriage arrived, so did the bridegroom and invited guests, but, strange, no bride appeared. Her parents, supposing she was in her room, went to the door to warn her that the time for the performance of the ceremony had arrived, when they found the room empty. It was early evening and not yet dusk, so they walked to the window to endeavor to discover the truant. Their horror may be imagined when they saw, rapidly disappearing through the timber on the creek bank, a man carrying in his arms the form of a young girl, which, from the dress, they immediately recognized as that of their daughter. In an instant the alarm was given, and the whole party, well armed, started in pursuit. Within a few minutes they were within a gunshot of the fugitive, but were unable to use their weapons in consequence of his shielding his body with the loved form of the bride elect. The young lover was almost frantic, and in his frenzy appeared to have gained the fleetness of the antelope, overtaking the almost breathless abductor, he seized him, and after a brief struggle wrested the girl from him, at the same time discovering that the abductor was a Cheyenne Indian who had been around the neighborhood for a year or two. At the same time that the farmer regained his sweetheart, the savage, with an eel-like wriggle, escaped from his hold and started on a keen run down the creek. The pursuers, however, were too much for him, and one of their number brought him to the ground by means of a well-aimed bullet from a needle-gun. It was soon ascertained that the red man was only wounded in the thigh. He was then taken prisoner and lodged in a neighboring bug-out, from which, by some means, he escaped during the night, carrying the needle-gun ball in his thigh, and has not since been heard of, although a diligent search has been made by the friends of the young lady, whose wedding has been indefinitely postponed in consequence of an attack of brain fever, the result of the fright she received.

TO CAPITALISTS.
I have invented a plan whereby Railroad Cars can be coupled and uncoupled, and the link set at desired angle, without requiring any person to go between the cars to accomplish it.
The plan is simple, inexpensive and effectual.
A liberal interest in the invention will be given to a party who will furnish the money to get patents in this country and Europe.
I have a working model of the invention.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE,
WEDNESDAY, July 7, 1875.

Yesterday was another dull day in business circles, except at the Sheriff's office, where the usual July sales were made. The bidding was not at all spirited, and very few attended the sale outside of those interested. There is nothing doing in money circles outside of the usual routine business. There is no inquiry for bank stocks at the present prices, and brokers complain that they never saw so little doing, and unless they strike a run of unexpected good luck before long, many of them will be forced to go West and kill grasshoppers for a living.

NEW YORK, July 6, 1875.

Money was easy at 2a2½; prime mercantile paper 3½a5. Sterling was dull at 486½a487 for sixty day and 489¾a490 for sight. The customs receipts were $444,000. The exports of produce for the week were $6,190,155. Gold closed at 117⅛, after selling at 117¼ and 117. The carrying rates were 1a2. The Assistant Treasurer disbursed $623,000. The clearings were $26,000,000. The specie engagements for to-morrow's steamer are $600,000. Government and railroad bonds are firm. State securities are quiet.

Stocks opened strong and higher. The improvement ranged from ¼ to 1¼ per cent. Pacific Mail was the leading feature, advancing from 39⅜ to 40⅞. Lake Shore rose from 58⅜ to 59⅛. Northwest advanced to 38⅞, St. Paul to 34, Union Pacific to 75¼, Western Union to 79⅞, and Erie to 15⅛. At the second call the market was quiet and firm. Stocks were strong during the last hour of business, when a general improvement in prices took place. The most marked advance was in Lake Shore, Pacific Mail and Western Union. The greatest activity seems in Western Union, which rose from 79⅛ to 80⅛ on considerable purchase of stock for investment. Pacific Mail and Lake Shore each advanced 1¼ per cent., the former from 58⅜ to 59⅜ and the latter from 39⅜ to 40⅞. Dealings in both these stocks were attended with more confidence than for some time past. Western shares were firm, Northwest advancing to 39, St. Paul to 34, and Rock Island to 104. Union Pacific was firm at 75a75⅛, and Erie at 15a15⅛. At the close there was a slight reaction in the general list.

The transactions on the Stock Exchange aggregated 72,000 shares, of which 19,000 were Pacific Mail, 22,000 Western Union, and 22,000 Lake Shore.

Condition of the Markets at Home and Abroad.

DAILY REPORT OF PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, July 6, 1875.

General business continues dull, as it always is at this particular time, and no immediate improvement is expected. Our merchants and manufacturers generally will have their time and attention absorbed during the next week or two in taking stock, and many of them, we apprehend, will be well satisfied to discover that they have held their own; some will no doubt come out ahead, but we are inclined to the belief that a greater number will come out behind.

APPLES—Sales of old crop at $4@5 per barrel, as to quality and condition, and new at $3@4.

BERRIES—Raspberries in better supply and lower; sales were reported to-day at $8 to $10 per stand of two bushels. Strawberries are out of season. Cherries, $7.50@8 per stand of two bu.

BEANS—Quiet and unchanged. Mediums, $1.80@1.85 per bush. and Navies, $1.90 to $2.

BUTTER—Continues very dull, with a supply considerably in excess of the demand; prime to choice solid packed, 14@16; common to fair, 10 to 12 cents.

CHEESE—Is coming in more freely, but with a steady demand prices are maintained; prime Ohio Factory, in a jobbing way, 11 to 11½.

DRIED FRUIT—Quiet; Apples, 7½@8½. Peaches, halves, 10@10½.

EGGS—The market continues quiet and unchanged at 18 to 19 cents, the outside figure for choice brands.

FLOUR—Trade in this important staple continues dull, but there has been no quotable change in prices. Spring wheat flours, $5.75 to $6.25, the outside figure for choice Minnesotas; winters, $6.25@6.50 for red, and $6.75@7 for amber and white. Rye Flour, $6@6.25.

GROCERIES—Our merchants nearly all report trade as being very dull, and it is, judging from present indications, likely to continue so for some time to come. Our latest advices from the seaboard continue to report both Coffee and Refined Sugars firmer, but for these as well as all other articles in this line, the demand is light, as retailers very generally are carrying just as little stock as they can possibly help.

GRAIN—There is no movement in Wheat, little or none coming forward excepting that consigned to the mills, and prices are nominally unchanged; Pennsylvania and Ohio red, $1.20@1.25; ditto amber and white, 3 to 5 cents additional. The Oat market continues quiet and unchanged; 62@63 for mixed, and 64 for prime white; the supply is not large, although fully equal to the demand. Ear Corn is in light stock and the market is firmer; quotable at 76@78 on track—Sale of one car reported at 77, in sacks. Shelled continues dull but unchanged, at 75@77 free in elevator. Rye quiet and nominal, at $1.10 to $1.12.

HAY—The market for baled continues quiet and unchanged; prairie, $17 to $18; timothy, $20 to $22, according to quality.

MILL FEED—Continues very dull, and notwithstanding the supply is only fair, prices are barely maintained; Bran is quoted at $18 to $19 per ton.

POTATOES—There is no demand scarcely for old in consequence of the abundance and low price of new; the latter are selling at $3 to $3.50 ₱ bbl. The best bid for old on track to-day was 50 cents per bushel. Cabbages, $2.00 to $2.50 ₱ bbl; String Beans, $2 to $2.50; Peas, $2 to $2.50 ₱ bbl; Tomatoes, $3 to $3.50 ₱ box; Cucumbers, $1 to $1.50 ₱ box; Bermuda Onions ₱ box, $1 to $1.25 ₱ box.

ALLEGHENY LIVE STOCK MARKET —WEEKLY REVIEW.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, July 5, 1875.
ALLEGHENY STOCK YARDS.

CATTLE.—GENERAL FEATURES OF THE MARKET.

The number on sale to-day was not large, 692 head, although with the exception of choice beeves, the supply was in excess of the demand, and prices for all grades still further declined. The shrinkage in value of prime fed beeves was not so great as it was of grassers, Texas and Cherokees, of which the offerings largely consisted, and at the close there were quite a number of cullings remaining unsold. This being a holiday was not without its effect, as the attendance of butchers was not as large in consequence, and then the hot weather and hard times combined, have curtailed very largely the consumption of beef. Dealers all complained of the market as having been a very unsatisfactory one; that, notwithstanding the cattle, especially those bought in Chicago, did not cost as much as they have been costing, they made little or no money.

Of the supply on sale, 23 cars were from Chicago, 5 cars from Indiana, 5 cars from Ohio, while the balance, about 3 cars, were driven in from the adjoining country; of the Chicago cattle, some 12 or 15 cars were Texas and Cherokees, which were rather better in quality than usual. Those from Ohio, Indiana, and Penna. were nearly all grassers, from which it will be observed that the supply of good fed cattle was light, but the abundance and low prices of the former forced the latter to sympathize, as even the best butchers bought more common and not so many good beeves to-day, thereby forcing down the finer as well as the commoner grades.

Prime to extra corn fed were quoted to-day at 7@7¼; medium to good, 6@6½; common to extra grassers, 4@6c; Cherokees, 3½@5½, the latter an outside price, although we are cognizant of some sales having been made at the price named. Grass Bulls, 2½@3½. There was little or no movement in stock cattle, and the supply was small although equal to the demand.

Following shows the number of cattle on sale, the States they were from as well as the names of the owner or shipper:

SHEEP AND LAMBS.

The supply, although not quite up to that of last week, was in excess of the demand, and the market was an exceedingly hard one on sellers, some of whom alleged that they would come out behind, as their stock cost in the country. Prices, as compared with last week, ruled considerably lower, and, for that matter, lower than at any time this year. The feeling begins to obtain ground that the market for this class of stock has about touched bottom, as producers generally will refuse to meet the recent heavy decline, and a reaction, therefore, is only regarded as a question of a little time. Prime sheep may be quoted, in a retail way, at 4½ to 5c ₱ ℔; medium to good, 4 to 4½; common, $1.50 to $2 ₱ head. Lambs, $1.50 ₱ head up to 6½c ₱ ℔. The stock reported on sale was as follows:

HOGS.

The market for this class of stock continues very dull, as the retail trade is always light during the heated term, and prices continue weak and drooping. Quotable, in a retail way, 7@7½@7¾c for common to extra, a decline of about 2c ₱ ℔ as compared with the highest point.

FRESH COWS.

Were in fair supply, as usual, mostly common in point of quality; the market, except for good milkers, continues dull, and prices are barely maintained. Some very good milkers were reported as having been sold at about $50@55, although choice ones cannot be had under $60@65; common to fair, and the offerings consist largely of this kind, $25 to $40.

VEAL CALVES.

Continue dull, with more offering, except of strictly prime, than can well be disposed of, and prices for the common grades are barely maintained—sales reported all the way from $2.50 per head up to 6c per ℔, as to quality and condition.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, July 6, 1875.

Trade was very quiet to-day, from which it is safe to infer that operators have not yet recovered from the effects of the Fourth; however, it was not brisk by any means prior to the Fourth, and it is not likely to be for some days, if not weeks, to come. As compared with Saturday, Crude was lower; immediate shipment was quoted at $1.25@1.27½. Refined —Baltimore delivery—11⅝@12, equal to about 9⅝ to 9¾ on cars here. Refiners continue to report that these rates afford little or no margin for profit, but there does not appear to be much inquiry notwithstanding.

The Barrel trade continues quiet and unchanged; countries, $1.10 to $1.15; city make, $1.30.

New York Breadstuffs Market—Weekly Review.

NEW YORK, July 5.—The features of our Wheat market the past week have presented a marked contrast to the preceding one. The most noticeable feature has been the animated demand for Spring, for future delivery, in part for the Continent, the important advices thence greatly stimulating the inquiry, and we notice a lively competition between English and Continental buyers. Many of the purchases have been of a speculative character, and many legitimate orders could not be filled, the current high prices preventing. Our private advices from the Continent are interesting and important their supplies of old wheat, it has been discovered, in the hands of farmers, prove to be much less than they had supposed, it having been fed largely during the winter to their cattle, sheep, and horses; this, coupled with the unfavorable prospects for the growing crop, had caused a decided upward turn at all their leading markets, and subsequent heavy rains had greatly increased the previous apprehension and further stimulated prices. What the damage to the crops has been by the deluge of last week, we may be able to report in our next. French farmers are greatly alarmed, but we are inclined to believe that the damage is greatly magnified, though, independent of the damage by the recent floods, we think their crop would have been considerably less than an average; and the same is true of Holland, Russia, Hungary, Sweden, and a portion of Germany and Austria. One thing is now very evident: all the old Wheat in Europe is quite certain to be marketed ere the 1st of October, and all the surplus of this country will find a ready market there at fair prices. The bulk of the Wheat passing the Dardanelles is quickly taken up for ports in the Mediterranean, largely for Marseilles, where prices have improved and stocks are diminishing, so brisk is the demand for the interior. Our latest advices from Russian ports give gloomy reports of their crops, and it is very evident that the surplus of Eastern Europe the coming season will be moderate, though timely rains may greatly change the prospects. From the South we have reports of the progress of the harvest, and the result thus far is very variable and collectively not very satisfactory. The crop in Virginia, Maryland, and Delaware proves to be better near the coast than in the interior, but the aggregate is below an average. At the West the Winter Wheat has been injured somewhat by the recent rains and the harvest delayed. The estimate of the condition of the crop, as furnished by the Agricultural Bureau at Washington, we think is much too high, and we feel confident no such result will be attained. Our advices from the North-West are very favorable for their crop, and should they have good weather, and escape the fly and rust, a large return seems assured; but the season is late, and much depends upon the weather this and the coming month. The movement of Wheat at the North is quite light, and it is very apparent to all intelligent millers and merchants there that the surplus of the North-West was largely overestimated by Western dealers, and it is now plain that our estimate, as published in March of "less than 25,000,000 bush." surplus, was in excess of the actual supply; and it now seems evident that whatever surplus they may have will be marketed ere the 15th of September, should we have good weather. Samples of the new crop of Winter Wheat, from James River, Virginia, have been exhibited on 'Change; they proved to be very good indeed. Prices of Spring have advanced since our last 8@9c ₱ bush., and Winter 2@4c, the latter not wanted. On Thursday the market was very much excited, Spring advancing 2@3c, with sales of 500,000 bush., the largest day's business for some years past; the major part of the business for the future. The exports of the week have been much less than we had hoped for; they are only 667,956 against 1,324,792 bush., the corresponding week last year, and from the coast only 953,074 bush., about half what we had estimated a month since. The exports to Europe for the month of June have been 3,557,000 bush., which is about two-thirds the quantity we had hoped for.

This day week we left our Flour market quite heavy and inactive for the medium grades, but prices firm for the low grades, since then the demand for Shipping Extras has proved light, and holders, in view of the rapid advance in Wheat here and at the West, have insisted on a material advance; this has prevented the filling of many orders. Something has been done in good and choice Shipping Extras for July delivery at full prices, but most receivers are reluctant to sell for the future, the rapid changes in the Wheat market and the relatively higher prices for it on the coast deter them from making time sales. We find our present supply of the low grades is extremely limited for the season, and with some advance in inland freights we cannot duplicate it. The situation, it seems to us, is a very critical and important one; so much depends upon the weather here and in Europe, that most receivers do not think it prudent to deal in options, and the chances are in favor of the buyer, and in favor of holding liberal stocks. Our receipts have been fair, but mainly of medium extras, and of these we have a liberal supply, but of all others the stock is moderate. Family grades have sold slowly, but have been held with greater firmness, and are less plenty. Superfine and No. 2 have been fairly active, have fluctuated, but close better, in fair demand. City Ground has been in good demand for the West Indies and South America, has improved, and at the current rates for Wheat orders for it cannot be filled at former limits. New Patent Process has been in more active request, in part for the London market and we note sales of good at $6.90@7 per barrel. Fancy brands of Minnesota have ruled quiet until Thursday, when holders generally refused to sell only at some advance: the rapid advance in Spring Wheat here and at the West induced them to withhold their Flour from market, and at Friday's market some advance was established, and most holders evinced much confidence in the future. The local demand has slightly improved, jobbers buying more freely, regarding present prices as quite safe under existing circumstances. Good Family brands, valued at $6.40@7, are held with more confidence, and it is very evident they cannot be replaced at current figures. The exports of the week are 25,513 barrels, against 46,539 barrels the corresponding week last year. To-day the market opened stronger, but quiet, the limited arrivals and further advance in Wheat strengthening the views of holders.—*Tribune.*

GEO. H. ROHE,
Sergeant Signal Service, U. S. A.

THE stage of water last evening was 32 inches and falling. The weather was oppressively hot during the early part of the day, but it cooled off somewhat during the afternoon, from which it is safe to infer that there was rain not very far away, and at this writing the indications are favorable for rain here.

CAPT. BARTON ABLE, we are pleased to state, is improving finely.

THE Fannie Tatum was advertised to leave St. Louis for Pittsburgh yesterday.

THE steamers Hudson and Ashland left Cincinnati for Pittsburgh, on Tuesday.

CAPT. JOHN WOODBURN expects to have his new Arkansas boat completed in about two weeks.

GENERAL J. S. NEGLEY returned to Cincinnati from Catlettsburg, Monday, on the Fleetwood, and left for his home in Pittsburgh Monday noon.

THE friends and acquaintances of Capt. John L. Rhoads will be gratified to learn that although not altogether well he was able to be about yesterday.

CAPT. JOHN J. DARRAGH left for Cincinnati yesterday afternoon by rail, to look after the insurance on the Paragon. From there he will proceed to Memphis, to look after the Belle of Texas.

THE John L. Rhoads arrived from St. Louis last evening, with all she could carry on boat and barge. The Veteran brought her barge up. Capt. Vandergrift had not decided last evening what he would do.

CHARLEY LYON, formerly wharfboat proprietor at Smithland, Ky., has become deranged on the subject of religion. He has abstained from food for fifteen days, saying the Lord has commanded him to fast. On all other subjects he is entirely sane.

THE Government dredge boats have completed their digging at Buffington Island, and it is to be hoped that that dangerous point to heavily laden craft will be much improved hereafter. During low water it was one of the most dangerous places on the river.

THE Grand Lake Coal Co., unable to buy a boat suitable for their business, have determined to build a new one. They have contracted with Caskey & Kerr, of Freedom, for a hull, and Hartupee is to build the machinery, which will be of the compound pattern.

MR. JAMES I. EARLE, clerk of the Upper Missouri steamer Western, has sued the Allegheny *Mail* and Com. Kountz for libel, in connection with the Missouri River transportation contracts. This is the second suit, and we understand that there are others yet pending.

A DISPATCH from Frankfort, July 5, says:—The Kentucky river has risen 3 feet in the last twenty-four hours, and the marks now show 12 feet, and rising slowly. The Blue Wing, which left Shaker Ferry Landing at 9 o'clock this morning, and arrived this evening, reports the river rising four inches an hour there. Large quantities of drift are running.

WE have been requested to call the attention of the wharfmaster, as well as the Wharf Committee, to the present condition of the wharf. It is so completely blocked with barges that it is next to impossible for a boat to get in. It is hoped that the matter complained of will be attended to, and that, too, at once. In addition to being blocked with barges, a great deal of room is unnecessarily employed in storing pig iron.

THE Northwestern Union Packet Company gained an important wharfage suit at St. Paul, a few days since, in the United States District Court. The suit was for money paid the city under protest, amounting to $5,979. The evidence being conclusive that the tax was not paid voluntarily, and that the city ordinance under which the wharfage was collected imposed a tonnage tax upon vessels, and was not a charge for the use of the wharf, but for the privilege of arriving and departing from the port, the Court held that the city ordinance conflicts with that clause of the United States Constitution which prohibits the State levying a duty on the tonnage without authority of Congress. The same steamboat company has suits pending, and about being commenced against all places collecting wharfage between St. Paul and New Orleans, amounting in the aggregate to $50,000.

THE directors of the Sand Island Bridge Company—a company composed of citizens of Louisville and New Albany—had a meeting last week in one of the offices of the Exposition building, Louisville. A full board was present, Littleton Cooke, Esq., presiding. A proposition was submitted from London capitalists, in which they agreed to furnish the company with any funds they might require to complete the work, provided they would first procure $300,000 of the stock subscribed and paid for. This proposition was thoroughly canvassed, and a number of the Directors spoke in opposition to placing any of the stock or bonds of the company in the hands of foreign capitalists. The contemplated bridge is to be built at the foot of Sand Island, and will be so constructed that it can be used for street cars and vehicles, as well as for railway travel. The benefit that will accrue to Louisville from the building of the bridge will be almost incalculable.

The J. D. Parker Accident.

A telegram from St. Louis to the Cincinnati *Commercial* gives the following particulars of the accident which happened to the steamer J. D. Parker on Monday. After passing the shoal places on the falls, in charge of Captain Pink Varble, the boat took a sheer, ran away, struck Ruble's Rock, splintering a hole in her bow, and making some thirty inches of water. Captain Varble headed her for the shoal water, landed at the Cement Mill, working all night to stop the leaks, which was done by means of spreading tarpaulins outside, and then chocking down the timbers in the hold. Captain George W. Neare, agent of the Underwriters, came down by rail from Cincinnati Monday morning, took a survey of the boat, consenting to Captain Bob Wise's determination to prosecute the voyage, and taking the barge Citizen along to overhaul and rehandle the freight in the hold, bacon and bulkmeat, which were slightly damaged. Captain Neare returned to Cincinnati in the afternoon. A protest was entered, and the boat with her cargo proceeds to Memphis to-night. She will have to be docked, and it is thought the damage will not exceed $1,000. Captain Pink Varble, Fall's Pilot, sends the following:—"LOUISVILLE, July 5.—The Parker run off with me above the bridge and struck Ruble's Rock, knocking a hole in her bow. I landed her, got the ferryboat along side, also a barge, pumped her out, repaired the hole and reloaded her freight and she left for Memphis at 7 this evening. The freight in the hold is damaged. The deck freight is all dry. She tows a barge from here with the freight on."

The success of the Elaine was hailed with enthusiastic cheers by their friends. The following is the score:

Death from Apoplexy.

On Monday afternoon about five o'clock Mrs. Hester Bowen, who lives on Ohio avenue, in the Ninth ward, Allegheny, died quite suddenly from apoplexy while sitting in a chair at her place of residence. She had been complaing of feeling ill for only a short time, but no fatal consequences were anticipated and her demise was wholly unexpected. The Coroner held an inquest on the remains yesterday and a verdict in accordance with the facts was rendered. The deceased was a married lady, thirty-two years of age and leaves a husband but no children.

Fires Yesterday Evening.

There were two alarms of fire yesterday evening shortly before six o'clock. The first, from box 52, was caused by a fire in the drying room of the brewery of Pier, Dannals & Co., on Stevenson street. The greatest damage done was by an accident to a German who fell through a hatchway and broke two of his ribs. But little property was injured.

The second alarm, from box 235, was caused by the burning of a tar shed, on Hiland avenue. It belonged to Contractor Barton. The loss will amount to about $300. One of the horses of the Relief engine, while going to this fire, was so overcome by the heat that it died soon after returning to the stable.

A Slight Mistake.

The workmen employed in building the foundations of the proposed new Lutheran Church, on Smithfield street, were engaged yesterday in correcting a slight mistake. They had built about two feet of the wall above ground, when they discovered that they were trespassing about seven inches over on the street line. It seems there were two plans—one for the lower foundation and one for the upper. The upper foundation commenced at the surface of the sidewalk, and was set back seven inches, as the under one projected just that much over the line. The workmen, however, forgot to make the wall recede when it reached the surface—hence when they discovered their mistake they had to take down what they had built up. It was awkward, but it was borne with commendable patience.

Row at a Picnic.

There was a picnic at Monitor Grove on Monday. It was decidedly a lively affair. Factions from the First and Third wards, Allegheny, were present, and a belligerency of spirit was manifest from the outstart. Shakey Patterson led off by refusing to pay for ice cream with which he had refreshed himself. A row ensued, and soon there was fighting all along the line. The solitary policeman on the ground was powerless. One man sustained the loss of a portion of his ear, bitten off by Patterson. Another was minus a portion of his nose. A man named Taylor, of the Second ward, Allegheny, was very badly cut about the head, and is said to be seriously injured. In addition, there was considerable thieving going on, a citizen, Mr. Samuel Getty, of Allegheny, having lost a silver watch. He made information charging Jack Hay with the theft. But examination of the gentleman's effects did not disclose any watch, only a lot of assorted plunder. Hay was accordingly discharged. Other informations have been made, however, and the police are on the lookout for the parties.

A "Fourth" Accident.

Monday evening George Greer, a boy about sixteen years old, while playing on Federal street, Allegheny, near Margeret alley, felt a pistol ball enter his side. He fell to the ground and was carried home—in Margeret alley. The ball had entered his side, but Dr. Ure, who probed for it, could not bring it out. After the first excitement had passed away, the police arrested Wm. Honninger, a butcher doing business at 240 Federal street, Allegheny, on a charge of doing the shooting. Honninger had been firing off a pistol, but explained that he came into the middle of the street and fired up into the air. The shot which struck the boy came from across the street, apparently from a window in Honninger's shop, but at the hearing last night, he proved that he did not occupy the apartments over his shop. The Mayor accordingly discharged him, after fining him $4 and costs for firing a pistol in the street, in violation of the city ordinance. The boy Greer is doing well, and the Doctor says he will recover, although the ball has not yet been found.

DIRECTORS OF EDUCATION.

Meeting of Allegheny School Controllers—Allotment and Election of Teachers—Important Financial Matters—No Change in Text Books—Smith's Drawing Adopted.

A regular meeting of the Board of School Controllers of Allegheny City was held last night in the Common Council chamber, City Hall. The following members were present at roll call: Messrs. Ashworth, Brown, Benney, Barclay, Dunlap, Davidson, Eaton, Foerster, Golden, Hobson, Hanny, Hemphill, Hartman, Haworth, Hamilton, Malcolm Hay, Robert Hay, Hubbard, Lannegan, Lea, Lorenz, R. C. Miller, Marthens, P. H. Miller, Moore, McCance, Oliver, Patterson, Park, Poppenger, Riggs, Ritenour, Richards, Straub, Smith, Stewrt, Slack, Sutton, Trimble, Welsh, Wallace, and President King.

The minutes of the previous meeting were read and approved, after which the Secretary read a list of the number of teachers to which each ward is entitled. The Secretaries of the various local boards then presented the names of the teachers they desired to have confirmed and their recommendations to that effect were adopted, except in the case of the First ward, where the matter was referred to the Committee on Teachers and Salaries, for the reason that the average attendance last year only entitles the ward to nine teachers and the board asks for twelve. The small average attendance in the First ward during the past term is owing to the fact that a new shool house has been in course of construction and the scholars were obliged to be instructed in rooms rather cramped and primitive and wholly devoid of convenience and partially of comfort.

The Board next went into an election for two music teachers. The gentlemen nominated were as follows: J. F. McConnell, M. McCabe, R. M. Martin, S. J. Byers, Nevin and Garrett. The present incumbents are Messrs. McCabe and Byers. It required thirty-four votes, a majority of all the members of the Board, to elect. The first ballot resulted as follows:

McConnell	1	Byers	27
McCabe	15	Nevin	18
Martin	11	Garrett	19

The following was the result of the second ballot:

McCabe	14	Nevin	20
Martin	8	Garrett	20
Byers	31		

There being no choice on second ballot, Mr. Hobson moved that Mr. Byers be elected by acclamation. The motion was put and the President decided it carried, but Mr. Riggs expressed a desire to know if a majority of the Board had voted for him. A rising vote was then taken, and it appeared that but 31 voted for Mr. Byers. Mr. Hobson objected to the rising vote, and said it was out of order. The Chair stated that he had only called for a rising vote to accommodate Mr. Riggs, and he decided Mr. Byers elected by acclamation. The vote for the remaining teacher was as follows:

McCabe	11	Nevin	16
Garrett	19	Martin	1

No selection being made on the third ballot, a fourth was ordered with the appended result:

McCabe	9	Nevin	18
Garrett	18	Martin	2

There still being no election Mr. Oliver moved that the members from the Eastern district take an informal vote, and that their choice from the four candidates be elected by the Board. After considerable discussion the motion was lost. Mr. Martin was dropped before proceeding to a fifth ballot, which resulted as follows:

McCabe	11	Nevin	19
Garrett	16		

A motion to postpone the election for one month and another to drop Mr. McCabe were both lost. The sixth ballot was as follows:

McCabe	15	Nevin	14
Garrett	17		

At the close of this ballot another motion by Mr. Hobson to postpone the election until the next meeting met with better success. It was carried.

Mr. Hobson presented the report of the Finance Committee recommending the refunding of overpaid taxes erroneously assessed to the amount of $98.66, and the election of the First National Bank of Allegheny as the depository of the Board for the current year. The report was received and filed and the recommendations were adopted.

Mr. McCance, Chairman of the Committee on Grades and Text Books, presented their report recommending that no changes be made in the series of grades and text books now in use in the public schools for the ensuing year, and that the Spencerian system of penmanship and Smith's system of drawing be added to the common school course of study, but that the matter of requiring pupils to study drawing be left optional with the local boards. The report was discussed for some time, but finally adopted. Dr. Riggs desired to have Krusi's system of drawing substituted for Smith's but an amendment offered by him to that effect was lost.

Mr. Hobson stated that he had neglected to include in the report of the Finance Committee a recommendation that the ensuing school term be fixed at nine instead of ten months. The object of this reduction in time he said was for the purpose of making up the deficiency there will be in the school funds for the next year. A resolution offered by Mr. Smith shortening the term one month and making a corresponding reduction in the salaries of the Principals and teachers was adopted. The Board then adjourned.

····The train on the P. V. & C. R. R., which is under the charge of Conductor S. P. Maderia, Engineer Teddy Rourke, Baggage Master Fatty Yohe, and Brakeman James Chessrown, was beautifully decorated on Monday, in honor of Independence day. Over one thousand flags of all sizes graced the locomotive, together with paper and floral wreaths of almost every size and design. A buffalo head protruded from the front of the engine and a Goddess of Liberty occupied a conspicuous position in front of the smoke stack.

····A man by the name of Langbein, while sitting on a doorstep in Miltenberger alley, Monday evening, fell asleep. He was awakened by a man who was going through his pockets, and when he got his eyes open he discovered that his gold watch was gone. He immediately gave the alarm, and a man who was passing along the street near by saw the thief escaping with his booty and gave chase. He was captured and the ticker (which was gold) recovered, and he was allowed to go on his way.

····There were fifty-six cases at yesterday morning's hearing in the Central Police Station. The parties implicated in the riot on Monday at the corner of Wylie avenue and Crawford street had a hearing and the following were sent to Claremont for thirty days: Edward Smith, John Moses, Jeff Bevelgue, Melinda Smith and Emma Gaw. John H. Vincent, one of the same party, received a sentence of twenty days. OBITUARY.

Death of a Worthy Citizen.

Wm. Henry, Esq., of Fallston, Beaver county, Pa., died on Sunday, July 4th, 1875, after a lingering illness. He was the oldest son of the late Hon. Thomas Henry, of Beaver, and was sixty-seven years of age at the time of his decease. Among the older citizens of Western Pennsylvania, Mr. Henry will be remembered as (for many years) the efficient editor of the Bever *Argus*, when that paper was the organ of the old Whig party in his county. He was one of the prominent citizens of his native county; filled various prominent public positions, and for several years represented his district in the State Legislature.

In every position, whether public or private, ability, energy and integrity marked his conduct, and few men acquired and retained in a higher degree the respect and confidence of their fellow-men. He was a man of strong religious conviction, which constituted the bases of that patience and fortitude that never forsook him during his severe and protracted illness. In his death, all feel that the community has sustained a great loss.

W. H. Gerrard.

The last issue of the Canton *Repository* contained the following notice of the demise of a former Pittsburgher: "Mr. W. H. Gerrard died June 29, in the 65th year of his age. Deceased became a resident of Canton in the month of February, last, having been preceded, by some months, by his son, Wm. H. Gerrard, Jr., book-keeper in the office of C. Russell & Co. He had been for many years, while yet in the prime of life, one of the most prominent men in the business circles of Pittsburgh. In a crisis of financial depression misfortune overtook him and left him, not a rich, but a poor man. By his rigid integrity he forfeited none of the confidence of his fellow men, and his name is mentioned with profound respect by all who knew him. He was a man of extensive travel, home and foreign, and a keen observer, a man of rare descriptive powers and strong social attachments. Mr. Gerrard's brief residence in Canton has been one of severe trial and affliction, and death finally came as the great relief. The community of Canton sympathizes deeply with the stricken widow, sons and daughters who survive him. His remains were taken to Pittsburgh on the eight o'clock A. M. train on Wednesday, for interment in the family grounds, religious services having been held at the house just prior to their departure."

PAINFUL AFFAIR.

A Young Lady Accidentally Shot.

A painful affair occurred at Ross' Grove on Monday at the picnic held by the Sunday school of the East Common Church. A party of young ladies and gentlemen took a little saunter away from the crowd and for amusement one of the young gentlemen produced a pistol with which they began shooting at a mark. Two of the young ladies had fired and enjoyed the sport. One of the gentlemen was then loading the pistol for a third lady, and had his thumb on the hammer while putting on the cap, when it slipped and the weapon was discharged. One of the party, a young lady, Miss Maggie Weldon was standing in range waiting her turn to fire. The bullet struck her in the side just at her belt. The ball buried itself in the flesh and the wound bled profusely. The victim was carried up the hill and received all possible attention. She became unconscious for a time, but recovered subsequently. About half an hour after the accident the one o'clock train going to the city came along, and she was taken home. She resides in the house at the rear of the Allegheny Savings Bank building on Federal street. Drs. B. B. Smith and James Hamilton are in attendance. They probed for the ball but did not secure it. The victim suffered considerable Monday night, but was reported much better yesterday, and the physicians thought she would recover. The affair was a most painful one, but was purely accidental, and no blame is attached to the young gentleman.

THE AMMON MURDER TRIAL.

Zell, Hoffman and Fishbach Arraigned before the Criminal Court Yesterday.

The injuries received by Martin Ammon last April in Jacob Sorg's saloon on the South Side, which resulted fatally, is too fresh in the minds of our readers to need repetition. At the time of the sad occurence three young men named Zell, Hoffman and Fishbach respectively, were accused of having inflicted the wounds and were subsequently committed for trial at Court, the two former on a charge of murder and the latter as an accessory before the fact. Yesterday the defendants were arraigned before Judge Stowe in the Criminal Court, and each one of them plead not guilty to the charge made against them. Messrs. Moore, Mossoth and Luty appeared for the Commonwealth and Messrs. Marshall and Moreland for the defendants. All parties being ready, the work of empanelling a jury was begun, which occupied the time until two o'clock.

The examination of witnesses was then begun, which brought out but little more than was elicited at the inquest before the Coroner's jury. The testimony of Jacob Sorg, the proprietor of the saloon in which Ammon was hurt, covers almost the entire ground, in which the witness stated that the defendants came into his place of business during the afternoon of the 24th of last April, and called for beer. On becoming rather disorderly, he, with a poker in his hand, and Hess, Ammon and Fite armed with billiard cue's, put the men out into the street. In half an hour he said Zell and Hoffman returned, and inquired why they had received such treatment, to which witness replied that, "had they come in and acted like men, he would have treated them decent, but when they behaved like rowdies, he was compelled to use them accordingly." At this second visit it appears that another general fight took place, and it was at this time that Ammon received the fatal blow upon his head. Mr. Sorg testified that he did not see any one strike a blow but that a general row took place, which was of such a promiscious nature that he could hardly tell who was engaged in it. He said it lasted about two minutes, after which Zell and Hoffman left the premises in a hurry. Not until they had gone outside did he know that Ammon was hurt and when he first discovered the wounded man he (Sorg) saw him lying on a chair with his head bleeding profusely. He was taken up and cared for. This was, in substance, all that was brought out and this witness was corroborated in the main by others.

Shortly before four o'clock the Court adjourned until this morning at nine o'clock. It is probable that the Commonwealth will only ask for a verdict of murder in the second degree in the cases of Zell and Hoffman. What disposition will be made of the charge against Fishbach remains to be seen.

Solid Comfort at Last—White's Fly and Musketo Net Frame, the Tourists' and Pleasure Seekers' Indispensable.

We present our readers in to-day's issue the card of Messrs. Holtzman & Wiederhold, Upholsterers, No. 64 Wood street, who, as our readers well know, have secured a reputation for superiority of workmanship in their line, and the taste and beauty of their decorative skill. But in addition to a full and complete assortment of articles and goods of elegance they have recently added to their stock an article or invention which is not only a luxury in itself, but an absolute necessity to those who would enjoy "tired Nature's sweet restorer, balmy sleep." This invention is called "White's Fly and Musketo Canopy," and whether for the sick bed, the dining room table, or for sportsmen camping out in the wilds of the forest, is an article of genuine comfort and utility. It can be used on all kinds, sizes and shapes of bed, can be attached to the back of a chair, or to a table so as to protect a family at meal time, and occupies so little space that it may be carried in a common valise. As at this season there are two classes of people, viz.: the stay-at-homes and the go-aways, we say to both: by all means go to Holtzman & Wiederhold's, No. 64 Wood street, and secure one of those Canopies which will repay you five-fold its cost during the season when the "winged pests" of the air would otherwise deprive you of priceless enjoyment.

Three Attainable Blessings.

A good appetite, vigorous digestion and sound sleep are the three blessings that imply a good many more, and are attainable by the daily use of Hostetter's Stomach Bitters. The stomach that is invigorated by that ruling tonic rapidly disposes of the food committed to it, and at the proper time craves for more with natural earnestness, and the brain from pain and despondency have banished by that salutary anodyne and cheering cordial, enjoys at the hour of rest that tranquil, dreamless repose for which no other boon that Providence can bestow can compensate. Besides these most desirable results, the entire physique is strengthened and fortified against the attacks of disease by this splendid vitalizer and protective agent, which, take it altogether, is about the most desirable, as it is unquestionably one of the most popular medicines in existence.
